## AMD Teachers Work on Draft of Sustainability Education Curriculum

(OSSINING, NY) – In early July, teachers from Anne M. Dorner Middle School were among 100 talented middle school educators from the region who worked together to draft a multidisciplinary sustainability education curriculum in English Language Arts, social studies, math, science and the arts. They worked to develop curriculum units, which are being refined by expert curriculum and sustainability consultants and will be placed on the Web for the teacher-writers to pilot during the year. During the time they were at BOCES working on the curriculum, Congressman John Hall, a strong supporter of sustainability issues, addressed the group.
